Join veteran Dental Consultant **Dr. Rick Beyers** and explore current issues relating to dental fraud and abuse. He will be discussing a range of topics including:

- the latest dental fraud trends in Canada
- real life dental fraud case studies
- red flags and many other detection techniques.

You will have the opportunity to engage with your colleagues through an interactive case study, providing you with the opportunity to apply what you have learnt over the course of the day.

In an effort to supply an informative and well-rounded educational experience, this workshop will also feature presentations by **Peter Arison** and **Karen Howes** of the **Ontario Dental Association**. They will address issues around ODA advice to dentists on fraud awareness and the appropriate use of dental fee codes.
